RE: El Paso Electric Company Five-Year Report (Docket No. 50594)

Dear Ms. Trevino:

El Paso Electric Company (EPE) respectfully submits this revised *Five-Year Report Required by 16 Texas Admin. Code § 25.97(e)*. EPE initially reported the period from September 1, 2019—the effective date of Public Utility Regulatory Act § 38.102—to December 31, 2019. The attached revised report now covers the five-year period from January 1, 2015, through December 31, 2019.

Sincerely,

A handwritten signature in black ink, appearing to read "MKB".

Matthew K. Behrens
Attorney, El Paso Electric Company

67

Public Utility Commission of Texas

Revised Five-Year Report Required by 16 Texas Admin. Code § 25.97(e)

PROJECT NO. 50594

AFFECTED ENTITY: El Paso Electric Company

General Information

Pursuant to 16 Texas Admin. Code § 25.97(e)(1), not later than May 1 every five years, each affected entity that owns or operates overhead transmission facilities greater than 60 kilovolts must submit this report. The first report must be submitted not later than May 1, 2020.

Instructions

Answer all questions, fill-in all blanks, and have the report notarized in the Affidavit.

Affidavit

A representative of the affected entity must swear to and affirm the truthfulness, correctness, and completeness of the information provided by attaching a signed and notarized copy of the Affidavit provided with this form.

Filing Instructions

Submit four copies (an original and three copies) of the completed form and signed and notarized Affidavit to:

Central Records Filing Clerk
Public Utility Commission of Texas
1701 N. Congress Avenue
P.O. Box 13326
Austin, Texas 78711-3326
Telephone: (512) 936-7180

1. Historical five-year reporting period: Jan. 2015 to Dec. 2019

What percentage of overhead transmission facilities greater than 60 kilovolts did you inspect for compliance with the National Electric Safety Code (NESC) relating to vertical clearance in the historical five-year reporting period?

El Paso Electric Company ("EPE") has performed ground-based visual line inspections on 100% of its transmission facilities greater than 60 kilovolts in the last five years. These inspections were conducted concurrent with other inspections to mitigate other hazardous conditions or while engaged in routine maintenance activities. In 2017, EPE also conducted a field inventory of all its structures and reviewed clearances of all of its lines as part of that process.

2. Future five-year reporting period: Jan. 2020 to Dec. 2024

What percentage of overhead transmission facilities greater than 60 kilovolts do you anticipate you will inspect for compliance with the NESC relating to vertical clearance during the future five-year reporting period beginning on January 1 of the year in which this report is submitted?

100%
